

# Hambali Fadib, Software Testing Analyst

Bumi Parahyangan Kencana Blok G2/22, 40238 Bandung, Indonesia +62 81223651655, fadibhambali@gmail.com

## PROFESSIONAL SUMMARY

Software Quality Assurance Engineer with hands-on experience in enterprise system testing, risk-based quality validation, and automation frameworks. Strong analytical thinker with experience evaluating system logic, edge cases, and structured defect documentation. Experienced in reviewing code behavior, validating outputs, and applying logical reasoning to ensure software correctness. Interested in AI-driven software validation and structured code evaluation environments.

## WORK EXPERIENCE

- Feb 2022 — Apr 2022 **Electronic Data Processing Staff, PT. Papyrus Sakti** Bandung, West Java, Indonesia
- Contributed to the development of warehouse supply monitoring automation using C and Pascal.
  - Validated inventory data accuracy and system records.
  - Supported network infrastructure and hardware maintenance in industrial environments.
- Aug 2023 — Oct 2024 **Technical Support Specialist, PT. Neuronworks Indonesia** South Jakarta, Jakarta, Indonesia
- Ensured storage system reliability and monitored object storage environments.
  - Conducted log analysis and root cause investigations.
  - Validated data integrity and supported preventive controls to minimize recurring incidents.
- Oct 2024 — Aug 2026 **Software Quality Assurance Engineer, PT. Neuronworks Indonesia** Bandung, West Java, Indonesia
- Designed and executed risk-based testing strategies across UI, API, integration, and UAT phases.
  - Evaluated complex business logic workflows and identified edge cases affecting billing and enterprise operations.
  - Performed structured defect analysis and documented findings in standardized formats.
  - Designed modular automation testing frameworks to improve regression stability.
  - Collaborated cross-functionally to validate system behavior before release approval.

## EDUCATION

- Nov 2023 - Feb 2029 **Bachelor of Information Systems, Asia Cyber University** South Jakarta, Jakarta, Indonesia
- Currently pursuing a Bachelor's degree in Information Systems, focusing on business process analysis, system design, data management, and IT governance, complementing hands-on experience in software quality assurance and enterprise-scale systems.

## SKILLS

- |   |                                       |
|---|---------------------------------------|
| Risk-Based Testing                        | Test Case Design & Edge Case Analysis |
| Structured Defect Reporting               | Automation Testing                    |
| Logical Reasoning & Problem Decomposition | Quality Scope & Boundary Definition   |
| Basic C                                   | JavaScript                            |
| Python                                    | SQL                                   |
